2. Launching the Design simulator

[When starting up the Design simulator for the first time]

3) Set the language *Can be changed later

*Do not press OK here; proceed to brand settings.

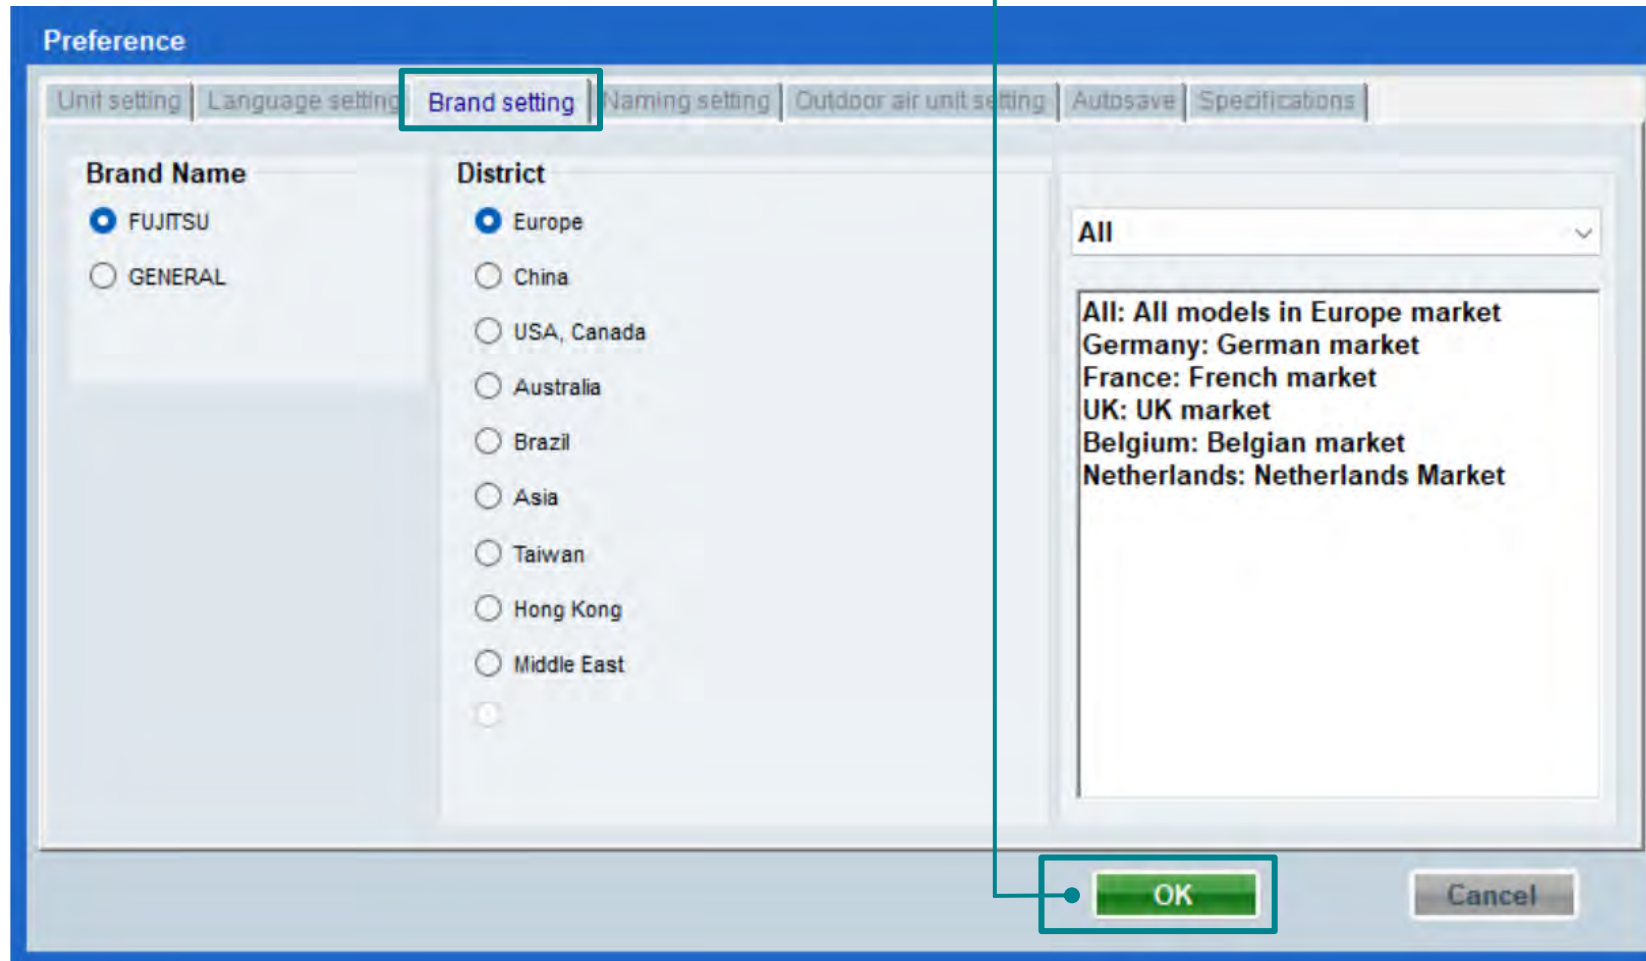

2. Launching the Design simulator

[When starting up the Design simulator for the first time]

4) Set the brand name *Can be changed later

5) Press OK.

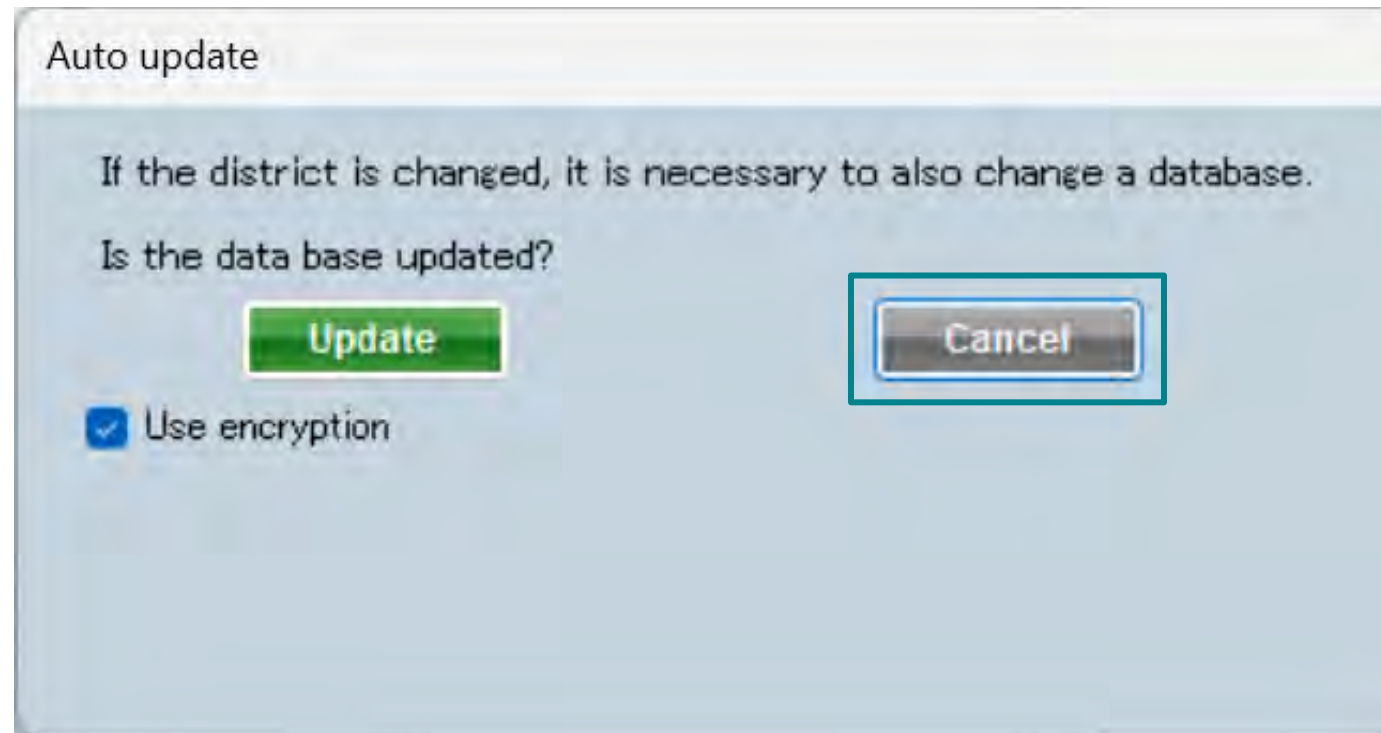

2. Launching the Design simulator

[When starting up the Design simulator for the first time]

6) Press Cancel.

*The downloaded Design simulator is always the latest version, so in this step, proceed to the next step by clicking the cancel button.

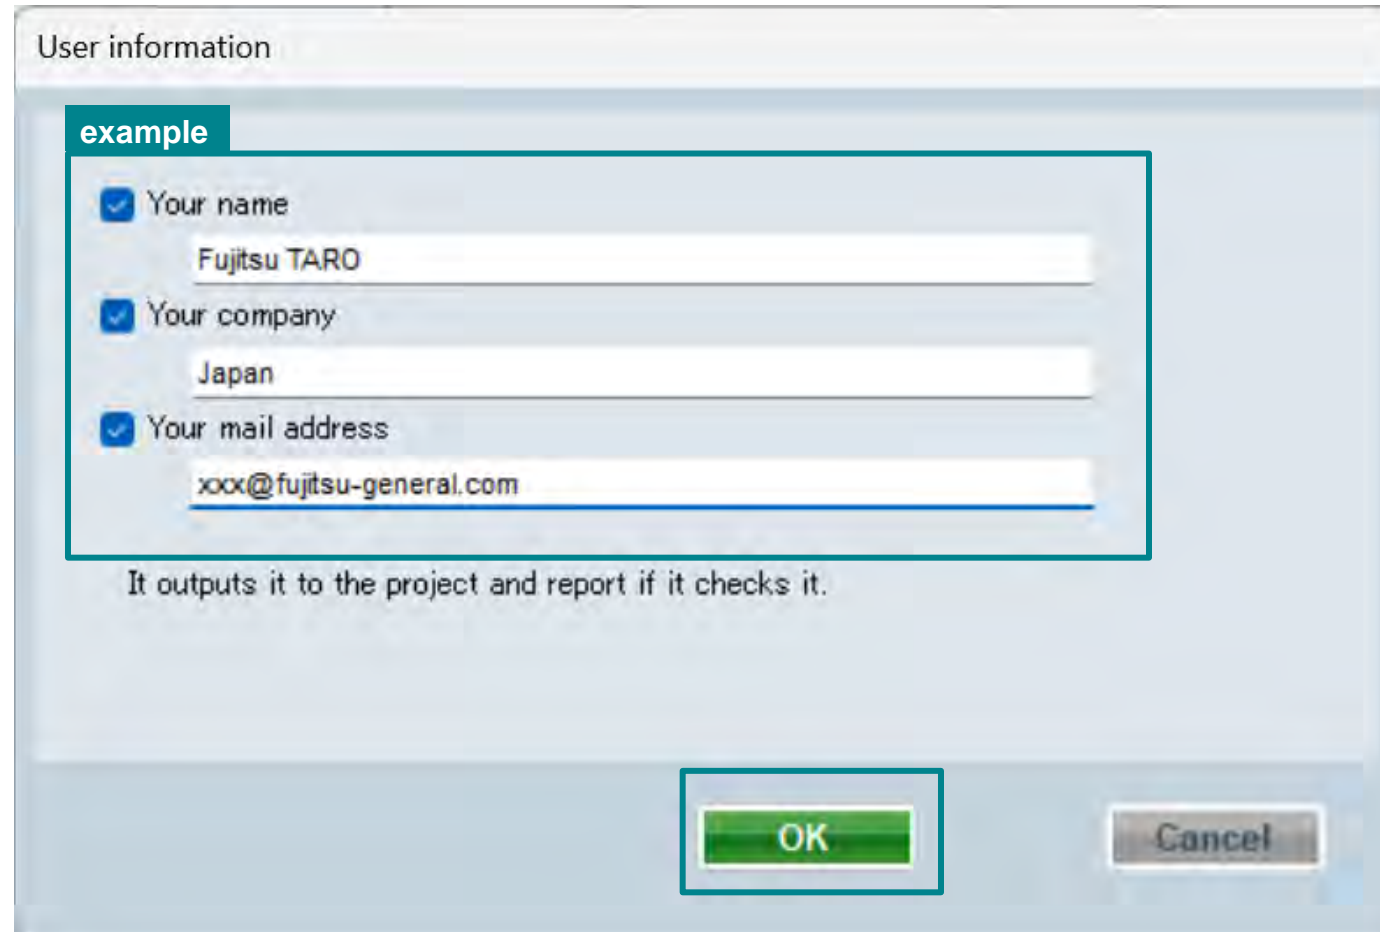

2. Launching the Design simulator

[When starting up the Design simulator for the first time]

7)Enter user information

8)Press OK.

The image shows a 'User information' dialog box with a title bar. Inside, there is a section labeled 'example' which contains three checked checkboxes: 'Your name', 'Your company', and 'Your mail address'. Each checkbox is followed by a text input field. The 'Your name' field contains 'Fujitsu TARO', the 'Your company' field contains 'Japan', and the 'Your mail address' field contains 'xxx@fujitsu-general.com'. Below these fields, there is a line of text: 'It outputs it to the project and report if it checks it.' At the bottom of the dialog, there are two buttons: 'OK' and 'Cancel'. The 'OK' button is highlighted with a green border.

User information

example

☒ Your name
Fujitsu TARO

☒ Your company
Japan

☒ Your mail address
xxx@fujitsu-general.com

It outputs it to the project and report if it checks it.

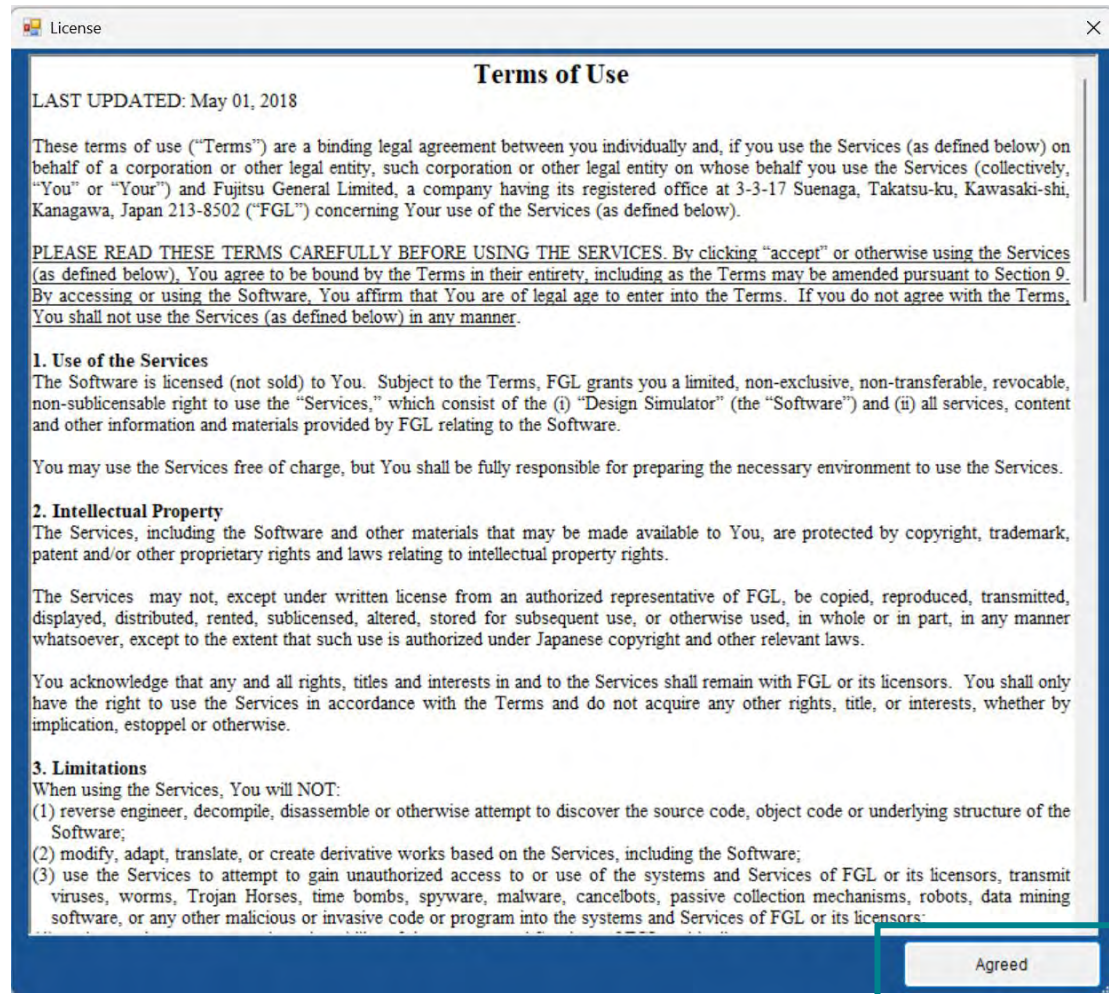

OK Cancel
