Fujitsu Introduces Elite Contractor Program

Fujitsu General America, Inc. has launched its Elite Contractor program for installers of Halcyon split systems and Airstage VRF systems.

The Elite Contractor program distinguishes installers who have attained a premier level of training and provide exceptional service and support to their customers. Becoming an Elite installer provides access to Fujitsu's sales support tools and a wide variety of other benefits.

Elite Halcyon installers can offer an extra two years parts and compressor warranty on select systems. Contractors who've reached Elite status are able to attend regional Elite contractor meetings and qualify for free in-person training. For installing Fujitsu systems Elite Contractors earn Loyalty Rewards that can be spent at Fujitsu's Brand Store site.

Through Fujitsu's online Toolbox, contractors can take training courses, redeem loyalty rewards, use online load calculation software, register products, and access service and troubleshooting manuals. Also, Elite contractors gain priority ranking on the fujitsugeneral.com Contractor Locator.

For more information on becoming a Fujitsu Elite contractor, visit www.FujitsuGeneral.com.
